

SPECIFICATION/DESCRIPTION:

Plug-in connected lamp (sound/infrared induction + music start lamp function), match with different country socket standard, anti-theft lamp

INPUT VOLTAGE:220-240AC 50/60Hz

LED POWER:1W/0.2W(LED)

INDUCTIVE TYPE: sound/infrared induction

INDUCTIVE DISTANCE:3-5 meters/≥50DB

SELECTED LAMP MODE: microswitch

DURATION:2.5 hours

INSTALLATION: special socket

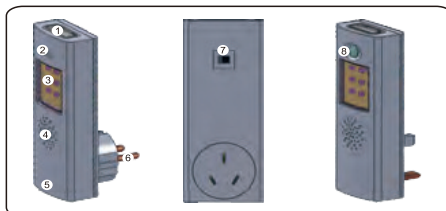

INDUCTION FEATURES

- Infrared induction, AC lighting starts when the human body is close to 3-5 meters.
- Sound induction, AC lighting starts when the sound of induction is ≥50DB
- If ambient brightness ≤ 10LUX, light on for 3-6 minutes then OFF, this can be extended.
- If ambient brightness ≥ 15LUX, always light on, stop induction
- The infrared radiation angle is 120 degrees.

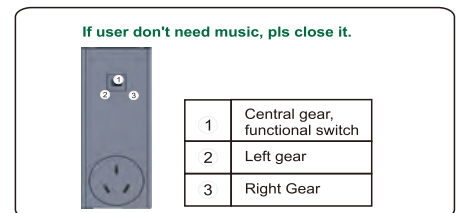

STANDARD

EN 60598-1, EN 60598-2-22, EN61347-2-7, EN61000-2-3, EN61000-3-3, EN55015, EN61547, IEC TR62778, Certificate: CE, EMC
