

TYPE: LCEC001

- Product description
- Safe and reliable, compact structure
- Flame retardance PC plastic casing
- Emergency kits+battery+driver
- It can install max battery 10cells(12V) D Type Ni-Cad

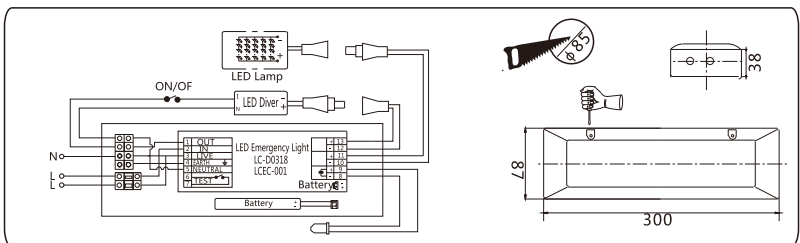

TYPE: LCEC002

- Product description
- Safe and reliable, compact structure
- Flame retardance PC plastic casing
- Emergency kits+battery+driver
- It can install max battery 6cells(7.2V) C Type Ni-Cad

TYPE: LCEC003

- Product description
- Safe and reliable, compact structure
- Flame retardance PC plastic casing
- Emergency kits+battery+driver
- It can install max battery 3cells(3.6V) D Type Ni-Cad

TYPE: LCEC004

- Product description
- Safe and reliable, compact structure
- Flame retardance PC plastic casing
- Emergency kits+battery+driver
- It can install max battery 5cells(6.0V) C Type Ni-Cad
